

# St. Mary School Committees

## **Athletic Association**

The Athletic Association promotes and supports student athletic programs at St. Mary School. The Association coordinates girls' volleyball, basketball and boys' basketball. The Association works in conjunction with the Athletic Director and Principal. Parents of students in athletics are expected to work at athletic events and two major fundraisers a year. The members are responsible for concessions and ticket sales at all home games as well as score board operations and clean up after games.

## **Home and School Association**

Works to help fulfill the total educational needs of all children at St. Mary School. The primary function is through fundraising to provide equipment and programs to benefit the children that would otherwise not be provided by tuition monies. ALL parents of school children are welcome to attend the meetings.

## **Education Commission**

Works with the principal to develop, review, and revise school policies. Meets once a month from September-May.

## **Enrollment Management**

The Enrollment Management Committee's objective is to achieve and maintain a viable number of students throughout K-8. The mission statement of the Enrollment Committee is to prepare each child spiritually, scholastically and socially to excel at the next level. The students in all grade levels interact in a nurturing environment. They achieve this through a high level of parent, teacher and parish community involvement.
